

Our mission is to provide the facilities, expertise and unique space for the sharing of culture between the East and the West in the American Experience.

To help create a community for our seniors, we need to rezone from LO to GR-MU to build senior housing with amenity. However, the development is restricted by compatibility study that the buildings are:

1. 25 feet away from single family houses
2. Buildings close to the single-family houses cannot be over 30'
3. Height will slowly increase to 50' by Jollyville Road.
